

Recommended Xerox Media for WorkCentre® 7525/7530/7535/7545/7556 - Europe

Revision 1.1 - Issued March 2011

Important Notes:

All media is listed by product, paper type, paper tray settings - image quality, weight (standard gsm), re-order number, size, tray runnability, and integrated office finisher runnability. The additional information column is for hints and tips on how to run certain media applications.

Machine reliability specifications may be affected by increased usage of Heavyweight, Extra Heavyweight, Gloss and Heavyweight Gloss modes. In addition, variances in machine reliability may occur due to extended use of some media types. Your Xerox service representative can advise you on using Heavyweight, Extra Heavyweight, Gloss and Heavyweight Gloss modes or special application media types for long duration copy/print runs

Environmental Conditions may require that Gloss papers be fed one sheet at a time through Tray 5, (Bypass/SMH). Relative Humidity greater than 40 % could cause multifeeds. Output may require removal at 25 sheets in the tray when not using a finisher

The Integrated Office "A" Finisher is capable of stapling at maximum; (maximum number will decrease if paper weight is greater than 24lb / 90 gsm):

50 Sheets of Letter (8.5 x 11" / A4), Executive (7.25 x 10.5), in Long Edge Feed (LEF); or of Letter in Short Edge Feed (SEF)

30 Sheets of Tabloid/Ledger (11 x 17" / A3), Legal (8.5 x 14"), or 8.5 x 13"

The Office Finisher LX is capable of stapling at maximum; (maximum number will decrease if paper weight is greater than 24lb / 90 gsm):

50 Sheets of Paper up to the size of 11 x 17" / A3 Short Edge Feed (SEF)
